Petróleo Brasileiro S.A. (Petrobras)

Overview

Composite score 742 94% confidence	Digital maturity 765	Network quality 728	Infrastructure 733
Risk tier Tier 1 – excellent	Expected loss ratio 48%	Rate modifier 0.74X	
Underwriting recommendation Auto-approve with preferred pricing			

Key findings

- ✓ Major digital transformation 2022-2023: consolidated 24 fragmented sites onto single Liferay platform
- ✓ Exceptional network position: cited by WEF, Bloomberg, Global 500 #71
- ✓ Strong governance transparency: full board disclosure, committee structures public
- ✓ Technology leadership: deep-water expertise, proprietary Cenpes R&D center
- ✓ Robust infrastructure: 99.8% uptime, modern tech stack, comprehensive security
- ⚠ Historical governance issues (pre-2018) require monitoring, but post-reform profile is strong
- ✓ Sustainability leadership: UN Global Compact signatory, extensive environmental initiatives

Digital signal deep-dive

Infrastructure signals

SSL certificate Current TLS 1.3	95	Domain age Mature 21 years	95	Uptime Excellent 99.8% (12 months)	92

Client Analysis

Sample Comprehensive Risk Assessment Report

Coverage specific recommendations

D&O			
Signal score	755	Preferred	
Exceptional governance transparency post-2018 reforms. Full board disclosure, committee structures, crisis management templates. Strong IR practices indicate mature governance culture.			
Indicative premium:	\$285K	Rate modifier	0.72X

CYBER			
Signal score	738	Approve	
Modern infrastructure with strong security posture. Recent platform consolidation demonstrates operational discipline. 9/10 security headers, TLS 1.3, 99.8% uptime.			
Indicative premium:	\$420K	Rate modifier	0.76X

CREDIT			
Signal score	728	Approve	
State-backed with strong network position. Tier-1 partnerships (Weatherford, BP). Diverse supplier ecosystem. Active investment in future production (FPSOs, pre-salt)			
Indicative premium:	\$175K	Rate modifier	0.78X

POLITICAL			
Signal score	712	Approve	
Government ownership provides stability but also exposure to political changes. Strong international presence (18 countries) diversifies risk. Monitoring recommended			
Indicative premium:	\$340K	Rate modifier	0.82X

Portfolio management insights
